RE: Violation Correction for ETICAM Corporation, Fernley, Nevada

Dear Mr. Bradd:

On March 14, 1991, a hazardous waste investigation was conducted by representatives of the Environmental Protection Agency (EPA) at ETICAM Corporation, Fernley, Nevada. During the course of this investigation, information was gathered in accordance with Section 3007 of the Resource Conservation and Recovery Act (RCRA), as amended [42 U. S. C. 6927].

The facility's subsequent response dated 8/19/91, adequately addresses the relevant Off-Site Policy violations and documents the facility's return to compliance. A determination has been made that ETICAM Corporation is presently acceptable to receive Superfund waste. This letter shall not be construed as a determination by EPA of your compliance with any other applicable regulations.

ETICAM Corporation should continue to take the necessary steps to maintain and ensure compliance with all applicable Federal, State and local environmental requirements.

If you have any questions please call Diane Bodine of my staff at (415) 744-2130.

Sincerely,

Karen Schwinn
Chief
Waste Compliance Branch
